The Whale Problem: A Status Report (A Book Review and Perspective), 389
U.S. Law of the Sea Position and Its Effect on the Operating Navy: A Naval Officer's View, 341

Information *for* Authors

Manuscripts should be submitted to the Editor, William T. Burke, University of Washington, School of Law, 1100 N.E. Campus Parkway JB-20, Seattle, Washington 98195.

Manuscripts will be accepted with the understanding that their content is unpublished and not being submitted for publication elsewhere. If any part of the paper has been published previously, or is to be published elsewhere, the author must include this information at the time of submittal. Submitted manuscripts will not be returned.

Form. Submit three typed copies of the paper, in English, reproduced on one side of good quality opaque paper. (An additional copy should be kept by the author.) Each copy must be complete. Type the text, including footnotes and references, double-spaced. Allow margins of at least an inch on all sides of the typed pages. Number manuscript pages consecutively throughout the paper.

Affiliation. On the title page include full names of authors, academic and/or other professional affiliations, and the complete address of the author to whom proofs and correspondence should be sent.

References to the Literature. Follow the Chicago Style Manual.

Figures. All figures must be submitted in a form suitable for good reproduction, have a brief descriptive title, and be drawn on separate sheets. Number figures according to the sequence of their appearance in the text, referring to them as Fig. 1, etc. On the back (or in a margin) of each figure, give the figure number, name of author, and title of this journal.

Tables. All tables must be discussed or mentioned in the text and numbered (with arabic numerals) in order of mention. Each table should have a brief descriptive title. Do not include explanatory material in the title; use footnotes, keyed to the table with superior lower-case letters. Place all footnotes to a table at the end of the table. Define all data in the column heads. Every table should be fully understandable even without reference to the text. Type all tables on separate sheets; do not include them within the text.

Spelling and Hyphenation. The authority is Webster's Unabridged Dictionary.

Permissions. If any figure, table, or more than a few lines of text from previously published material are included in a manuscript, the author must obtain written permission for republication from copyright holder.

Reprints. A total of 50 reprints of each paper will be supplied free of charge. Additional copies may be ordered at charges shown in the reprint price scale that will be sent to the author with the first proofs.

Abstracts. Each paper should be summarized in an abstract of not more than 150 words. An abstract prefaces each paper and should enable the reader to know whether the paper is pertinent to his needs. Do not include references or symbols.

The Publisher will do everything possible to ensure prompt publication. It will therefore be appreciated if the manuscripts and illustrations conform to the style of the Journal.
